Overview

The I²C Summit has been specifically designed for physicians who specialize in interventional cardiology as well as Fellows and other healthcare professionals interested in cardiovascular diseases and therapeutics. This conference offers presentations from Canadian Interventional Cardiologists from throughout the country on “relevant & current” topics.

With unparalleled focus on advances in interventional and invasive cardiology, the I²C Summit will feature state-of-the-art presentations, case reviews, and interactive discussions. This meeting aims to strengthen the Canadian interventional cardiology community through social interaction and scientific discussion addressing contemporary interventional cardiovascular therapeutics.

We hope you join us and your colleagues to share and learn in this dynamic educational opportunity. Dinner is provided, registration is free and can be completed online at <http://caic-acci.org>
